

This is the favorite dessert at 7.5. It comes with the basic rule: first build the object (of course without looking at the instruction) then eat the chocolate. Served with lots of coffee to fight „digestion gravity“.

manual

In this section all the ingredients needed for this dish are listed.

The quantity is measured to feed 7.5 people.

Since the recipes are very basic the ingredients need to be of perfect quality and freshness. So be prepared to invest in good quality pasta, fresh herbs and greens and excellent olive oils.

To make the cooking procedure as transparent and easy as possible we use a **timetable layout**.

Since **pasta** is the most popular dish in the office we put together one card with helpful tips how to prepare perfect pasta.

The most popular drink is "**appleschorle**". It beats Gatorade with it's isotonic properties by far.

Ketchup is a 'no no' on our table. It is only allowed with the burger.

A fresh hot **coffee** finalizes the meal as a standard part of a perfect lunch break.

We have no specific recipes for desserts since our famous and ultimate dessert are **kinder eggs**. The mixture of sweet chocolate and a small engineering challenge is the perfect preparation for starting the second half of the day.
